# Webinar Announcement

## Online Sensors for Green Wall Systems

### Event Details

<b>Date</b>	30.01.2026
<b>Time</b>	09:00 AM (CET)
<b>Speaker</b>	 Bc. Michal Vittek, Technical University of Liberec
<b>Join Link</b>	<a href="https://aarhusuniversity.zoom.us/j/64351537010">https://aarhusuniversity.zoom.us/j/64351537010</a>

### Overview

Join us for a focused seminar exploring monitoring requirements and deployment strategies for greywater treatment.

*Note: The session starts promptly at 09:00 AM (CET). Please join 5 minutes early to test your audio/video.*

**About Michal Vittek** Michal Vittek is a laboratory technician at the Technical University of Liberec, where he develops and adapts experimental setups for research on filtration media and systems. He holds a bachelor's degree in Mechatronics from TUL and has six years of experience supporting laboratory and in-situ testing. Before joining the university, he worked for many years as an electrical systems designer.
